SUMMARY

Motivated pre-final year Computer Science student focused on data analysis and problem solving, with a foundation in programming. Passionate about building impactful solutions through technology and innovative projects. Outside academics, gardening and badminton help me stay balanced while improving focus and teamwork.

EDUCATION

- **CV Raman Global University** 2023-2027(Pursuing)
Btech in CSE(Data Science)
CGPA: 7.80
- **Mother's Public School** 2020-2022
High School(PCMB)
Percentage: 69.02%

TECHNICAL SKILLS

- **Programming Languages** Python, Java, SQL
- **Data Analysis:** Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Pandas, NumPy
- **Technologies:** HTML, CSS, MYSQL, Cryptography and network security, OOPs, Data Structure

WORK EXPERIENCE

- **Samagra Enterprises Pvt Ltd** 15 April 2026 – 30 May 2026
Python Full Stack Intern
 - Developed YummyBite, a full-stack food ordering web application using Flask, SQLAlchemy, HTML, CSS, and SQLite with features including user authentication, cart management, checkout workflow, admin dashboard, order history, category filtering, and dynamic food search.

PROJECTS

- **Result Management System** June 2025
 - Developed a Python-based system using SQLite for efficient student data management, course registration, and dynamic result retrieval.
- **Smart Email Validator** April 2026
 - Built a Python Tkinter GUI tool to validate emails using format checks, MX record verification, and disposable detection with bulk CSV support.

ACHIEVEMENTS & CERTIFICATIONS

- **IBM Data Analyst** IBM via Coursera 2025
- **Data Engineering on AWS-Foundations** AWS 2025
- **Java Basics** HackerRank 2025
- Secured **1st Position** in Theatre at **IIT KGP**
- **Joint Secretary of CSE Society**
- Participated in hackathons and competitions at **IIT Bombay** and **Silicon University (Nirman 4th Edition)**
